

Two Proportions Confidence Interval Analysis

Parameter	Value
Group A Successes	10
Group A Failures	5
Group B Successes	20
Group B Failures	10
Proportion Group A	0.6666666666666666
Proportion Group B	0.6666666666666666
Difference (pA - pB)	0

Simulation Results	Value
--------------------	-------

Simulation Results	Value
Number of Simulations	200
Simulation Proportion Group A	0.7333333333333333
Simulation Proportion Group B	0.6333333333333333
Simulation Difference	0.09999999999999998
Mean of Sample Differences	0.0016666666666666707
Standard Deviation	0.14215601757693316
Total Number of Samples	200

Confidence Interval	Value
Confidence Level	95%
Lower Bound	-0.30000000000000004
Upper Bound	0.30000000000000004
